No. 1

Mini Review

E. Kohen, C. Kohen, J. Prince, D.O. Schachtschabel, J.G. Hirschberg, P. Morliere, R. Santus, L. Dubertret and B.L. Shapiro (U.S.A., F.R.G., France)
Bioregulatory mechanisms at the level of cell organelle interactions: microspectrofluorometric in situ studies 1

Research Articles

P.M. Arthur, B. Duckworth and M. Seidman (U.S.A.)
High level expression of interleukin-1β in a recombinant *Escherichia coli* strain for use in a controlled bioreactor 29

L.C. Chew and W.C. Tacon (U.S.A.)
Simultaneous regulation of plasmid replication and heterologous gene expression in *Escherichia coli* 47

S.P. Fraleigh, H.R. Bungay and L.S. Clesceri (U.S.A.)
Aerobic formation of ethanol by *Saccharomyces cerevisiae* in a computerized pHauxostat 61

S.N. Agathos and R. Parekh (U.S.A., Canada)
Enhancement of cyclosporin production in a *Tolypocladium inflatum* strain after epichlorohydrin treatment 73

L. Strandberg, S. Hober, M. Uhlén and S.-O. Enfors (Sweden)
Expression and characterization of a tripartite fusion protein consisting of chimeric IgG-binding receptors and β-galactosidase 83

Erratum 97

No. 2, 3

Dedication 99

Editorial 100

Minireviews

H.E. Schoemaker and M.S.A. Leisola (The Netherlands, Finland)
Degradation of lignin by *Phanerochaete chrysosporium* 101

J. Łobarzewski (Poland)
The characteristics and functions of the peroxidases from *Trametes versicolor* in lignin biotransformation 111

W. Zimmermann (Switzerland)
Degradation of lignin by bacteria 119

0168-1656/90/$03.50 © 1990 Elsevier Science Publishers B.V. (Biomedical Division)

Research Articles

Z. Wang, B.H. Bleakley, D.L. Crawford, G. Hertel and F. Rafii (U.S.A.)
Cloning and expression of a lignin peroxidase gene from *Streptomyces viridosporus* in *Streptomyces lividans* 131

D. Seelenfreund, C. Lapierre and R. Vicuña (Chile, France)
Production of soluble lignin-rich fragments (APPL) from wheat lignocellulose by *Streptomyces viridosporus* and their partial metabolism by natural bacterial isolates 145

A. Muheim, M.S.A. Leisola and H.E. Schoemaker (Switzerland, Finland, The Netherlands)
Aryl-alcohol oxidase and lignin peroxidase from the white-rot fungus *Bjerkandera adusta* 159

P.J. Harvey and J.M. Palmer (U.K.)
Oxidation of phenolic compounds by ligninase 169

R. Kondo, T. Iimori, H. Imamura and T. Nishida (Japan)
Polymerization of DHP and depolymerization of DHP-glucoside by lignin oxidizing enzymes 181

P. Ander, C. Mishra, R.L. Farrell and K.-E.L. Eriksson (Sweden, U.S.A.)
Redox reactions in lignin degradation: interactions between laccase, different peroxidases and cellobiose: quinone oxidoreductase 189

E. Srebotnik and K. Messner (Austria)
Accessibility of sulfite pulp to lignin peroxidase and marker proteins with respect to enzymatic bleaching 199

M.-L. Niku-Paavola, E. Karhunen, A. Kantelinen, L. Viikari, T. Lundell and A. Hatakka (Finland)
The effect of culture conditions on the production of lignin modifying enzymes by the white-rot fungus *Phlebia radiata* 211

B. Schmidt, U. Heimgartner, B. Kozulić and M.S.A. Leisola (Switzerland, Finland)
Lignin peroxidases are oligomannose type glycoproteins 223

D. Ritter, S. Jaklin-Farcher, K. Messner and H. Stachelberger (Austria)
Polymerization and depolymerization of lignosulfonate by *Phanerochaete chrysosporium* immobilized on foam 229

No. 4

Research Articles

T. Lukacsovich, G. Baliko, A. Orosz, E. Balla and P. Venetianer (Hungary)
New approaches to increase the expression and stability of cloned foreign genes in *Escherichia coli* 243

K. Schügerl (F.R.G.)
Comparison of the performances of stirred tank and airlift tower loop reactors 251

J.-S. Kim, M. Powalla, S. Lang, F. Wagner, H. Lünsdorf and V. Wray (F.R.G.)
Microbial glycolipid production under nitrogen limitation and resting cell conditions 257

K. Schügerl (F.R.G.)
Comparison of the performances of stirred tank and airlift tower loop reactors 251

J.-S. Kim, M. Powalla, S. Lang, F. Wagner, H. Lünsdorf and V. Wray (F.R.G.)
Microbial glycolipid production under nitrogen limitation and resting cell conditions 257

B. Zurbriggen, M.J. Bailey, M.E. Penttilä, K. Poutanen and M. Linko (Finland)
Pilot scale production of a heterologous *Trichoderma reesei* cellulase by *Saccharomyces cerevisiae* 267

A.-M. Gillespie, K. Cook and M.P. Coughlan (Ireland, UK)
Characterization of an endopolygalacturonase produced by solid-state cultures of the aerobic fungus *Penicillium capsulatum* 279

H.J. Rhee, Y.I. Lee and K.H. Yang (Korea)
High-level expression of human insulin-like growth factor II in *Escherichia coli* 293

L.L. Wood, C.S. Cobbs, L. Lantz II, L. Peng and G.J. Calton (U.S.A.)
Immobilization of enzymes with polyaziridines 305

H. Kautola, N. Vassilev and Y.-Y. Linko (Finland)
Continuous itaconic acid production by immobilized biocatalysts 315

M. Wada, T. Kasumimoto, T. Miki, H. Osada and S. Kato (Japan)
Production of a protein A – lymphotoxin hybrid protein for cancer-targeted therapy 325

F. Degli-Innocenti, E. Ferdani, B. Pesenti-Barili, M. Dani, L. Giovannetti and S. Ventura (Italy)
Identification of microbial isolates by DNA fingerprinting: analysis of ATCC *Zymomonas* strains 335

P.C. Van der Aar, H.W. Van Verseveld and A.H. Stouthamer (The Netherlands)
Stimulated glycolytic flux increases the oxygen uptake rate and aerobic ethanol production, during oxido-reductive growth of *Saccharomyces cerevisiae* 347

Short Communication
O.O. Amund, O. Omidiji and O. Ilori (Nigeria)
Purification and properties of a neutral protease produced by *Lactobacillus brevis* 361
